- Spanish ★★☆☆☆

I'm an ambitious entry-level software engineer with experience in business, content creation and marketing. Talented troubleshooter and problem-solver. Familiar with code review, performance evaluation and project coordination tasks. I'm looking for a company in which I can apply my passion for technology to interesting projects and hone my programming skills while solving challenging real world problems.

Work History

2022-04 - 2022-09	Software Engineer <i>School of Code</i> <ul style="list-style-type: none">Used Agile Workflow in team projects.Developed clear specifications for project plans using pre-determined requirements.Collaborated with fellow engineers to evaluate software interfaces.Integrated third-party tools (e.g. Google Maps API, AWS Cognito) and components into applications.Adjusted design parameters to incorporate new features into projects.Used unit testing to ensure robustness of the code.Weekly pair-programming projects (16 weeks)Week-long team project (Bootcamp Adiutor App)Month-long team project (turnUp free local event finder)
